# **CUSTOMER CHURN REPORT**

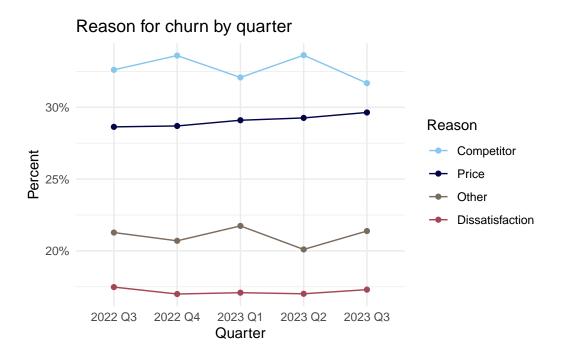

Updated: August 23, 2023

#### **Overview**

Understanding our customer churn is essential to DemoCo's success. In 2022, our customer churn was 18.1% - leading to revenue loss of \$2.2 million. **Our 2023 goal is for customer churn to be under 10%.** 

## Churn by quarter

### **Purchase characteristics**

#### Purchase characteristics by contract type and churn status

|                | Average purchase | Total transactions | Days since last purchase |
|----------------|------------------|--------------------|--------------------------|
| Month-to-month |                  |                    |                          |
| Did not churn  | \$50.08          | 19                 | 136                      |
| Churned        | \$50.25          | 16                 | 294                      |
| One year       |                  |                    |                          |
| Did not churn  | \$50.01          | 2                  | 125                      |
| Churned        | \$50.07          | 2                  | 281                      |
